WELCOME TO BOLINA

Company introduction

This is Bolina, the company's brand, the world's largest manufacturers of Bathroom products with an annual turnover of approximately 1.2 billion US dollars, which is a successful story that started in 2002 and continues to grow up as the world leading producers of sanitary wares situated in Zhangzhou City of Fujian Province, China, which spreads over an area of 420 thousands square meters warehouses and 2 plants of sanitary wares and one plant of bathroom cabinets, which produce 4 million pieces of sanitary ware and 50 thousand sets of bathroom cabinets per year, and the company has approximately 2,000 employees.

The company owns the most advanced production equipments, such as 4 tunnel kilns from German Technic with the length of 110 meters, Smart High Pressure Casting machine for stick on Rim WC, lifing casting benches, CNC carving machines, Glazing robots from Japanese FANUC and so on. The company use high technology and advanced, energy-saving production machines to produce bathroom products in order to increase efficiency and keep the stable high quality and now it has passed the system authentication of IOS9001, ISO14001 and Watermark, cUPC & Watersence, CE Certification from different countries.

Bolina focus on research and development to ensure superior products quality, continues to create and develop a unique design and innovation. Bolina business has been extended around the world, its products are exported to more than 20 countries and regions, has built long-term relationship with many famous sanitary ware brands all over the world including some big project, wholesale, retailer supermarkets in US and UK. Like cooperating with famous sanitary ware brand Kohler, American Standard, Roca group, Western pottery, Home Depot, Lowes, ect. The products are widely used in Star-rated hotels, office buildings, high-end apartment. It gets high praise from many customers all over the world.

We are looking forward to working together with each potential customer in the near future.
